WE NEED TO RESTORE COMMON SENSE TO THE COMMONWEALTH

Rebuilding the Economy: Lou will undo the economic damage caused by Gov. Tom Wolf's disastrous response to the coronavirus epidemic, which included crushing small businesses with shutdowns, killing thousands of jobs, sending COVID-positive seniors into nursing homes, and botching the vaccine rollout.

Unleashing Pennsylvania's Natural Resources: Lou will be a champion of the production of coal, oil, rare earth elements, and natural gas; industries targeted by liberals intent on destroying our jobs. Well-paying blue-collar jobs have vanished because of regulations, freezes, and bans - Lou will fight to restore our energy sector prominence.

Combatting Illegal Immigration: Lou was the first mayor in the country to pass a local ordinance standing up against illegal immigration and was promptly sued by the ACLU. As Governor, Lou will maintain his strong stance against illegal immigration, as a public safety issue, as job protection for Pennsylvania workers, and as a public health issue.

Supporting Our Law Enforcement Officers: Lou will always fully fund law enforcement and as Governor will oppose any efforts to defund the police. He will strongly support firefighters and first responders, who put themselves in harm's way to protect and defend their communities.

Restore Trust in Our Elections: The 2020 election taught us that changes to election rules, put in place using the coronavirus pandemic as an excuse, caused delays, chaos, uncertainty, and widespread mistrust in our electoral process. Pennsylvanians must know that the integrity of our elections is sound, and Lou will take action to restore public trust.
